

BIATHLON YUKON NEWSLETTER FALL 2024

There was snow on the tops of the mountains last week and the leaves are changing colours, so it must be getting to be the end of summer. The Range was busy this summer with all sorts of programming, and also a lot of work on the building site – clearing trees, building demolition and trail work. It may

look messy now, but it is all for a great cause.

Biathlon Yukon also held the (First Annual) Northern Biathlon Development Camp on the August long weekend with 14 athletes from the Yukon and the NWT, coaches from Inuvik, Whitehorse and Hay River, and numerous assistant coaches. Athletes did shooting fundamentals, roller skiing, strength training, games, time trials and made great connections. This was a highly successful camp and coaches are excited to try to make this an annual event.

Biathlon Yukon is planning the coming season's events, which includes Officials' and Coach Training. The **Entry Level Officials' course will be held September 7** and the Advanced Level training will happen in early November. Coaching clinics are also in the works, so if you are interested in either Bronze or Silver Coaching, please send an email if you are interested in any of these courses.

Registration for programming is now open! If you are a returning athlete/family you should have received registration information already. We encourage all families to sign up as supporters or officials when registering their children. Bears registration information has also been sent out – email any questions you may have about that process.

It looks like it will be another great season – stay tuned with what is happening at the range by following us on Facebook or Instagram!

COMING EVENTS

Registration is now open to confirmed athletes – check with us if you need help

—
*Annual Work Bee
Date TBD*

—
*Entry Level Official's
Course
Saturday Sept. 7*
